

# Supervisors needed

**Support the next generation of STEM careers!**

Do you work within the STEM industry and can offer your time to host a Year 12 student during the summer holidays in support of our Research STEM programme?

**Want to know more?**

Sign up for our information sessions

## Benefits:

- Develop your coaching/management skills CPD for early career researchers and employees
- Showcase your research to a wider audience
- Improve communication skills
- Demonstrate public engagement and develop links with local schools
- Inspire someone to take up a STEM degree or Apprenticeship
- Bolster your talent pipeline

## What is required:

- Provide a 2 week on-site, hybrid or virtual placement during the summer holidays
- Provide a practical research question students can research and report on
- Support students in developing professional, research and quantitative skills
- Complete an induction
