

Trustee: Stephanie Baxter

Stephanie Baxter is the Senior Policy Lead for Innovation and Skills at the Institution of Engineering and Technology (IET). The IET is one of the world's largest engineering membership organisations and Stephanie's team seek to champion the major engineering, technology and societal challenges of our time. They do this by inspiring innovation, showcasing great engineering and creating thought-leadership designed to bring about change.

Stephanie started her career as a Research Scientist, with a first-class degree in Chemistry from Warwick University, followed by an early career in high impact research and development at GSK. She then moved into Education Policy at the Royal Society of Chemistry before moving to the IET. As part of her current role Stephanie was seconded to the Department of Business, Innovation and Skills (BIS), working alongside the Chief Scientific Advisor, Sir John Perkins, to deliver his Review of Engineering Skills to identify policy interventions to boost the engineering skills pipeline.

Stephanie was a former recipient of a Nuffield Bursary and CREST Gold Award which has left her with a passion for promoting Science, Engineering and Technology to young people and she regularly speaks in the media on matters relating to Engineering and Technology skills
