

## Vannessa Nash

I have been with STEMPOINT since 2003 and manage the administration for the STEM Ambassador Scheme and lead the Primary K'Nex Challenge.

As a mother of 3 boys have an understanding of the education system and the transition between education and employment for young people from a parents perspective.

My background is in hospitality and before joining STEMPOINT I trained and worked in hotels, and within various customer facing roles such as reception, meeting and greeting visitors. In my current role these people skills are put into practice dealing with 3000 STEM Ambassadors and liaising with company gatekeepers.
